NEW YORK, Feb. 2.—Reports of a more active spot demand in the south were accumented by an advance in reation today and the close was steady at a net gain of 5 to 7 points. Outsider contracts soid at Sainrday and within 11 points of the season's high record.

Liverpool made a steady showing, with private cables attributing the advance to an improving spot demand and the continued absence of hedge selling. There were a few overnight selling orders around the local ring, probably to realize profits after yesterday's advance and first prices were 1 point lower to 2 points higher. The market showed a very steady undertone, however, and while there were remained at 4 to 5 points during the middle of the day, the general feedency was anyward on reports of a more active demand from New England mills and exporters. Active months soid 8 to 10 points net higher in the late trading and closed within 2 or 3 points of the best.

Trade interests were good buyers during DREXEL HOTEL. Third and Cheyenue; strictly modern; elegantly furnished recius; \$5.50 per week, with private bath,

Trade interests were good buyers during the day, while there was also covering by recent sellers.

The semi-weekly interior movement showed shipments of some ten thousand bales in excess of receipts, and the continued free movement to the ports now is said to be partly at the expense of stocks of the counted interior towns.

Excited purchasing, which began at the opening bell, reached its wijdent pitch in the last few minutes of the session. As a consequence, the final quotations were the topmost reached and the market in the end was virtually bare of offerings.
